

Instructions for Poster Presenters

In order to efficiently communicate the results of research to the viewers, the following guidelines are recommended when formatting your poster:

- All presentations should be in English
- Avoid using all capital letters, even in the title, as they are visually confusing
- Make sure that the text is large enough to read from 1m away; keep the text to a minimum of 18 point and even larger for the title
- If possible, convert data to properly labelled graphs

Poster Preparation

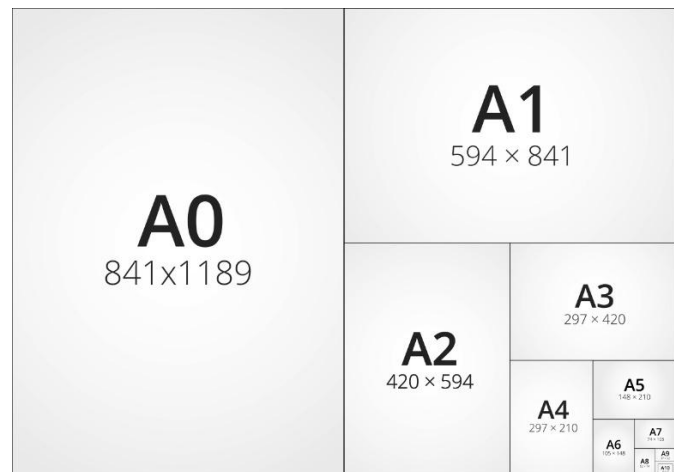

Portrait Size: A0 (international size – 841 mm × 1189 mm).

Title of your poster and authors presentation at the top.

Posters not fitting within this maximum size will not be displayed.

Please ensure that your poster has a portrait (not landscape) orientation.
